SUMMARY OF WORK PERFORMED/IN PROGRESS:

Continued brush clearing and mowing in SWMU 6 with assistance of the surveyors. Brushhog attachment for bobcat broke (Mechanical problem). Received a JD 650 Dozer and started clearing/grading prep at marketing access haul road. Found two 2" pvc stick up wells in SWMU 6 during clearing which are not labled; Will get surveyor to get coordinates, identify wells and status with IES Solutions; confirm if wells are in any of the SWMU 6 excavation areas; Will schedule for abandonment per specifications if necessary. Wells are presently surrounded/marked by fencing

MEETINGS HELD / SAFETY ISSUES (Tailgate/Weekly):

Safety Meeting next to Envirocon's trailer with A Ward, T Seibel, L Johnston, J McClellan, B Sparks, D Coakley, E Lundborg, and Envirocon crew reviewed clearing JSA, lightning shutdown. Harold Johnson of Western in attendance for all tailgate meetings while posting JSHA's and Refinery Hot work permits on permit board located along south side of Envirocon Trailer.

AIR MONITORING & SOIL TESTING (Analytical and Physical):

Ted Witteman (Pine Environmental) onsite with two replacement wind turbines which will replace wind turbines at Stations #1 and #3 which have a factory defect. Continue collecting Background air samples for lab analysis (day 2 of 6)

OUT OF SCOPE WORK/SCHEDULE IMPACTS:

UPCOMING WORK and/or 2 WEEK LOOK AHEAD:

Lay fabric and gravel for Marketing Access road; Start silt fence/erosion control installation; Post updated schedule;

PHOTOGRAPHS/ATTACHMENTS (Submittals; Field QC/QA Reports):
